AN UNPUBLISHED INCHDENT IN THE LIFE OF CAPT. SAMUEL BRADY. BY A WESTERN MAN.

Gray with the instinctive feeling of one who knew there was danger, and with that vivid presence of mind which characterizes acquainted with frontier life, ceased at once to struggle. The horse had been started by the sudden onslaught, and sprung to one side. Ere he hed time to leaf for ward, Brady had ca ght him by the bridle.

ward, Brady had ea ght him by the bridle. His loud snorting threatened to arouse any one who was near. The Captain soon soothed the frightened animal into quiet. Gray now hurriedly asked Brady what the danger was. The strong, vigorous spy, turned away his face unable to answer him. The settler's already excited fears were thus turned into realities. The manly form shook like an aspen leaf, with emotion—tears fell as large drops of water over his bronzed face. Brady permitted the indulgence for a moment, whilst he led the horse into a thicket close at hand and tied him. When he returned Gray had sunk When he returned Gray had sunk to the earth and great tremulous convul-sions writhered over him. Brady quietly sions writhered over him. Brany quiesy touched him upon the shoulder and said, "Come." He at once arose, and had game but a few yards until every trace of emaition had apparantly vanished. He was no longhad apparantly vanished. He was no long-er the bereaved husband and father—he was the sturdy, well-trained hunter, whose ear and eye were acutely alive to every sight or sound, the waving of a leaf or the crackling

of the smallest twig.

He desired to proceed directly toward the house, but Brady objected to this, and they passed down toward the river hank. As hey proceeded, they saw from the tracks of horses and moceasin prints upon the places where the earth was moist, that the parly was quite a numerous one. After thorough ly examining every cover and possible place of concealment, they passed on to the southward and came luck in that direction to the spot where Bevington stood sentry. When they reached him they found that Biggs had not returned. In a few minutes he came. He reported that the trail was large and broad; the Indians had taken no pains to conceal their trucks—they simply had struck back into the country, so as to avoid coming in contact with the spics whom they supposed to be linguing along

the river.
The whole four now went down to the cabin and carefully examined the ruins.— After a long and minute search, Brady tiz-c ared in an authoritative manner, that none of the innates had been consumed. This announcement at once dispelled the most harrowing fears of Gray. As soon as all that rowing fears of Gray. As soon as all that could be discovered had been ascertained, each one of the party proposed some course of action. One desired to go to Pittsburg

and obtain assistance—another thought best to return to Melatosh and get some vol uniteers there—Brady listened patiently to both these propositions, but arose quickly, after talking a moment apart with Biggs and said, "Come."

Gray and Bevington obeyed at once, no ilid Biggs object. Brady struck the trail and began pursuit in that tremendous rapid manner for which he was so famous. was evident that if the savages were over-taken, it could only be done by the atmost exertion. They were some hours ahead from the number of their horses must be nearly all mounted. Brady left that if the were not overtaken that night, pursuit would be uterly faile. The Capania's intimate knowledge of the topography of the country enabled him to anticipate what points they would make. Thus he gained rapidly upon them by proceeding more nearly on a straight line toward the point at which the

SAD AFFAIR IN WOBURN.-We learn of a sad affair which took place in Wohurn yesterday, which has created a great deal of ice ing in that community, and the par-ticulars of which are as follows: About half-past six o'clock, as Mr. Parker Laton a worthy and much respected citizen, returned to his home from his afternoon's work, he found that his house was dark, and he heard his little child, about a year old, crying quite loud. He went into the house, and struck a light, when a sad sight met his eyes. The dead body of his wife, with her throat cut, and covered with blood of the structure of the same than the same was lying upon the floor, and near it his little child, also covered with blood. STATE INDUSTRIAL SCHOOL FOR GIRLS The annual report was presented to the Legislature to-day. One important fact has already been dis covered, and which the Trustees would impress upon the minds of ail, viz: that in nearly every case the purents or those who previously had them in charge were more in fault than the girls, and that in nearly one-half the number, their anfortunate con-dition was attributable to the neglect or abuse of a step-father or step-mother .-Boston Telegraph

DAVIS' PAIN KILLER.

Brooklyn, Coun., June 15, 1844.

Finner Davis:—Although a stranger to you, for the purpose of saying a few words in favor of your invaluable medicine. I have used your Pain Killer for a monier of years, and for howel complaint and burns, and in fact for gains of all kinds, I think it pre-coincul.—Before I became acquainted with your medicine, I had a violent attack of dysantery, which reduced me very low, in fact my friends thought I could not survive, but by the treatment of a Botanie Physician, the best remedy I then knew, I recovered. Since then, I have had several attacks, one very violent, bout four years ago. I was attacked at 3 three o'clock in the morning, and at survise, I was not able to get off my bed, I sent and got at wenty-free cent boutle of your Pain Killer, which I commenced taking, according to directions, and at six o'clock in the evening my bowels were replace, and I was up and moving about, although somewhat weak. I would treammend to all similarily affaired, to avail themselves of your invaluable metalche.

I am sir, ynarts respectfully.

Lind Consolidated Lotteries, of which R. France & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the recople, who is swent to superintend and certify that everything connected with them is done an strictly honorable manner, and that it is in creats of parties who superintend and certify that everything connected with them is done in a strictly honorable
manner, and that the interests of parties who
reside at a distance are as well protected as if
they themselves were present at the drawing.
Another fact which the managers call attention to, it, that all personshave a legal right
to send orders for tickets to Maryland, as
butteries are legalized by special law in that
state. A lutter is drawn every day in the
month. If no particular closs is name, orders
are filled in the first drawing to take place
after the communication cances to hand. The
prices of tickets vary from \$1,00 to \$20.—
No tickets leavever, sent unless the monmoney for the same is received with the order.
The drawings are upon the principle of one
number on each ticket (after the Havana
plan), and Ternary combination. Prizes vary
in amount from \$20 to 1900,000. All orders for
tickets or packages will receive prompt after
tion, and the drawing mailed to all parchasers immediately after it is over. Address

AMERICAN AND FOREIGN OFFICE.

R. H. EDDY, Soliestor of PATENTS, (Late Agent of U. S. Pater t Office, Washington, under the Act of 1857.)

NO. 76 STATE, OPPOSITE HILBY ST., MOSTON.

A FTER an extensive practice of opwards for twenty years, continues to secure Patens in the Gnited States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Assignments, and all Papers or Brawings for Patents, excetted on liberal terms, and with despatch. Itsesarches made into American or Foreign works, to determine the validity or utility of Patens or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting one Bollar. Assignments recorded at Washington.

pies of the claims of any Pavent turnsmen oy remitting One Bollar. A-signments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentalities of inventions, unsurpased by if not immeasurably superior to any which can be offered them claswhere. The testinomials below give proof that none is MORE SUCCESSFOL AT THE PATENT OFFICE that the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has asundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accoundate a vast collection of specifications and official decisions relative to putents. These, besides his extensive fibrity of legal and mechanical works, and fall accounts of patents granted in the United States and Europe, reader him able, beyond question, to offer superor facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there is not proved the office of Commis inner of Patents, R. H. Eddy, Esq.,

there, are here sared inventors.

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., as Boson did business in the Artent Glüce, as Schritor of procording Patents. There were few, if any persons acting in that canacity, who had so much business before the Patent Office; and there were none who conducted it will more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and not skillidal Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ aperson more competent and trustworthy, and more capable of pating their applications in a form to secure for them an early and favorable consideration at the the Patent Office.

Late Commissioner of Patents."

From the present Commissoner.

Accuser 17th, 1855.—During the time I have held the offic of Commissioner of Patents. The H. EDDY, Esq., of Buston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the must capable and successfol practitioners with whom I have had official intercourse.

giving ease and relief to consumptive patients, or curing such as are cursives.

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the Carray Petronal affords relief and comfort.

Aston House. New York City, March 5, 1856.

Devror Arra, Lovell. I feel it a duty and a pleasure to inform you what your Creamy Petronal has done for my wife. She had been for mouths latering under the dangerous symptome of Consumption, from which no advected from the converse gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for active, eccommended a trial of your medicine. We bless his kindness, as we do your skill, for the has recovered from that day. She in o'y et as strong, as fue used to be, but is free from her cough, and calls hereaft well.

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their atmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are ablown that thuse Pattle have virtues which surpass in excellence the ordinary medicines, and that they win mercelentedly upon the esteum of all man. They are said and plaesant to take, but powerful to cure. Their penetrating properties dimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul immers which breed and grow determine, stimulate sluggish or disperdenced organs into their natural action, and impact healthy breed and grow detemper, stimulate singuish or disor-dered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they care the every-day complaints of every body, but also formidshe and dangerous disenses that have ballled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doese, the safeet and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which sunsis belief were they not au-bare been made which sunsis belief were they not auhave been made which surpass belief were they not sub-stantiated by men of such excited position and character as to forbid the suspicion of untruth. Many-eninent clergymen and physicians have bent their names to corti-fy to the public the reliability of my remedies, while oth-ces have sent me the searmance of their conviction that my Freparations contribute immessely to the relief of my efflicted, suffering fellow men.

BROWNELL'S VENTILATOR.

PATESTED, SELT. 10, 1856.

SIR:—

Herewith you are presented with a list of sizes with the price of each annexed, of BROWNELL'S PATENT VENTILATOR for all purposes where ventilation and a strong draft are required; and are particularly designed for RAIL ROAD CASS, PUBLIC BUILDINGS, SNOKET CHIMNIES, and CABOOSE and CAUD PIPES.

The advantage proposed by this ventilator

CAME PIPES.

The advantage proposed by this ventilator over all others is, it gives a uniform draft to a climney, and at the same time excludes water thus doing away with two great critis—a back draft and drippings down the chinney. The arrangement of the ventilator is very simple; it can be easily adjusted to any use for which it may be required, and it is not liable to get out of order.

A REMEDY which CURES IN FIVE AMNUTES.—M. LERGUX'S French Cholera Cognae Ditters. This truly wonderful scientific compound is recommended by the most eminent and learned physiciaus of all Europe and America, and enjoys the best rejutation of anything similar ever offered. It is without doubt, the best most efficient and generally acknowledged remedy against cholerally distributed and emphaints of the atomach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 per cent.; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription, "Hall! M. Leroux, the great chemist and inventor, by whose knowledge our armics are preserved from cholera."

This invaluable preparation is also a remedy for billionsness, indigestion, weakness, and general derangement of the stomach. Upon heing taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.

In this city, also this remedy has been tried with the most undoubted success, and the united the tense in the content of the stomach.

sold last year by some nemers as rods.
Also, fixtures for a new and valuable improvement in applying insulators by which the glass is kept day, causing no leaks in roofs of inilidings, and effectually preventing the electrical finid from being conducted by iron screws and drives into the seam.
The following recommendations have been furnished gratuitously:
Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Gineinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which had been dead to the control of them. In the Univ. of Louisville

This will certify that I have examined the
Lightning Rods, Metallic Points, and Insulating Attachments manufactured by Mr. Syratt,
of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of
the electric fluid; and the Gilded Copper,
Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those
atmospheric causes most likely to currode them.

PROFESSOR WOOD ollers for saic perfect HAIR RESTORATIVE. It is a short time restore the Hair, which has become gray prematurely, to its original color—bring it out where it is gone, and arresti when it is falling off—cleause the head of dan draff and ittelnings—remove all cutaneous cruptions, and render the scalp perfectly healthy, by restoring the secretive organs to their original vigor and strength, and thus supply nutriment and coloring matter to the roots. It does not Dye the hair, but is, in short a perfect Hair Invigorator and Tonic.

To the young, who so much admire the beautiful locks and ringlet, he feels that he will be padoned if he offers the advice suggested by long study and extensive observation. It is to discent all colorine and stimulating oils for the hair, and keep always upon the toilet a bottle of the Restorative for occasional use and we can safely predict, that henceforth silver locks will be upon hald heads. Let the dark eye be ever so pierring,—and the teeth be those of pearl—still, if the natural Haids be withheld from the hair, and in consequence becomes first dead and harsh, then gray, or falls off nature will be robbed of more than half its charms; as it is a soveright remedy for those who are gray as well as those who are build, all must see the propriety of making only such application to the hir and scalp as is calculated to preserve both in a healthy state.

From the editor of the Real Estate Advertiser No. 2 School Street.

Boston, March 20, 1855.

Prof. Woul—Dear Sir—Having become prematurely quite gray, I was induced some 6 weeks since, to make a trial of your Hair Restorative. I have used less than two buttles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going on, and I have great, hopes that in a short time my hair has not fully attained its original color, yet the change is gradually going on, and I have great, hopes that in a short fine my hair has a h

moisture and vigor of the hair, which, before was harsh and dey, and it has ceased to come out as formerly.

Respectfully yours,
D. C. M. RUPP.

Milford, Worcester Co., Mass., Nov. 13th, 1855.

Prof. O. J. Wood—Dear Sir—I take pleasure in hearing voluntary testimony to the magic effects of your wonderful Hair Restor ative. As far back as 1856 my hair commenced failing off until the top of my scalp became bald and snooth as glass, and it has continued to fall off for a great many years, notwith standing I have used many celebrated preparations for its restoration. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment I found after a few applications that my hair became firmly set and passured by very glossy and beautiful appearance; and at the time I had used a quart bettle, my build head was cover ed over with a young and vigorous growth or bair, which is now from one to two inches in length, and growing very fast.

length, and growing very fast.
Yours, truly,
HENRY GOODRICH
